

REMARKS

In filing RCE for responding to the final Action, an amendment has been filed, wherein in each independent claim, it is defined that the heat-exchange concave for promoting heat-exchange under increased pressure has a depth in a range of 1 to 20 μ m.

In paragraph 0027 of the original specification, the reason of selecting the height of the heat-exchange concave is explained. If the depth of the heat-exchange concave is out of the specific range, heat exchange of the object can not be properly made. The specific range of the heat-exchange concave of the invention is not disclosed or suggested in the cited references.

Reconsideration and allowance are earnestly solicited.

A three month extension of time is hereby requested. A credit card authorization form in the amount of \$1,770.00 is attached herewith for RCE (\$790.00) and the three month extension of time (\$980.00).

Respectfully Submitted,
